

BUTTING

BUTTING USA | North American Headquarters

Butting USA, a global leader of stainless steel pipe technology and manufacturing, has announced plans to establish its North American headquarters and first United States production facility in Loxley, Alabama. The project will unfold in two strategic phases, representing a total of \$61 million capital investment and the creation of up to 100 high-quality jobs in Baldwin County.

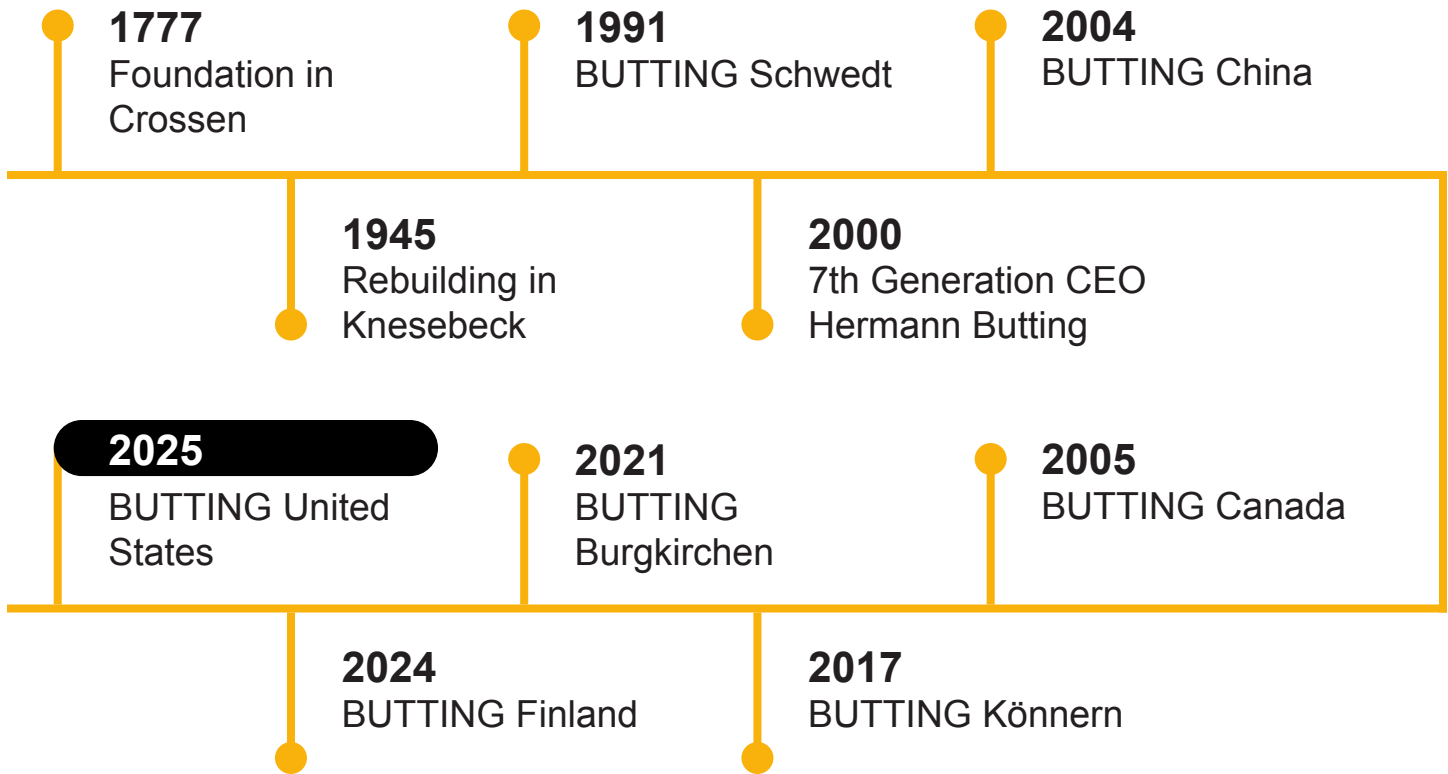

BUTTING – MORE THAN PIPES.

BUTTING Group | About

As a family-owned company founded in 1777, Butting's leading principle is "Progress by Tradition". Headquartered in Knesebeck, Germany, Butting is an internationally recognized leader in stainless steel pipe technology, clad pipes, customized spools and components, as well as cryogenic pipe and valve technology systems. With operations in Germany, Finland, Brazil, Canada, China, and now the U.S., the company continues to grow its global presence across numerous industries, including Aerospace, Industrial, Chemical, Food & Beverage, Medical & R&D, Pharmaceutical/Biotech, Electronics/Semiconductor, and more.
